## PROJECTS

### PERSONAL WEBSITE

MARCH 2020

A personal introductory website built using basic HTML and CSS.

### ONLINE INTERNSHIP PORTAL

OCTOBER 2019 - NOVEMBER 2019

Developed an Internship Portal using PHP and JS, with backend connectivity. On the portal a person can post internships or can apply to internships.

### WHAT'S THE WEATHER APP

JUNE 2019

Developed a Weather App which uses APIs to give the current weather of any city entered by the user.

### CURRENCY CONVERTOR

JUNE 2019

Developed a Currency Converter App which uses APIs to give the real time currency exchange rates.

### COLLEGE WEBSITE

AUGUST 2019

Developed a College Website using HTML5 and CSS3.

### JS - STOPWATCH, CLOCK

JULY 2019

A simple stopwatch and a clock built using HTML5, CSS3 and JavaScript.
